23. Problem: (use additional Sheets if necessary) Sun patch numbers 111719-02 and 111706-04 are required to support the installation of Forte 6 update 2, the Sun ONE Studio 7 Compiler Collection, and the Sun supplied software required to connect them. The configuration of Forte 6 update 2, the Sun ONE compiler Collection, and connecting software is being deployed to avoid performance issues with the Sun ONE Java-based graphical debugger by using the graphical debugger supplied with Forte 6 update 2. The two patches are required to correct core dump problems with the Forte 6 update 2 graphical debugger.						
24. Proposed Solution: (use additional sheets if necessary) Install Sun patch numbers 111719-02 and 111706-04 on t1mss06. cksum 390177582 111706-04.zip cksum 3921401466 111719-02.tar.z						
25. Alternate Solution: (use additional sheets if necessary) None						
26. Consequences if Change(s) are not approved: (use additional sheets if necessary) We would be deploying a Sun graphical debugger with known core dump issues to the EDF test environment and the DAACs.
